

Energy Consumption

GSFC has a goal to reduce the Center's energy consumption

What can you do?

- Turn off lights, computers, and other equipment when not in use
- Use energy saver settings on electronic equipment
- Dress for the weather: put on a sweater and warm shoes instead of turning on a space heater

Energy Reductions

GSFC has reduced its energy use over 17% since 2003. To meet the energy reduction goal, the Center must reduce consumption another 13% by 2015.

Greenbelt Energy Reduction

(Electric, Natural Gas, Landfill Gas, & Oil)
